 H.C. MUDDOX

# FIND YOUR PERFECT COLOR

Our brick collection has many color variations, so you have the design flexibility to create chromatic masterpieces or structures with a pop of color. For size and color availability visit [hcmuddox.com](http://hcmuddox.com).

# SIGNATURE COLORS

Wires are used to create a slight drag and lightly pitted texture, highlighting the natural minerals in the clay. Swatches below shown in wire cut texture.

Carob

Sierra Slate

Ebony

# Coastal Series

After firing, the brick is tumbled to produce a weathered, rustic appearance with soft, rounded edges - evoking the charm of authentic, organic materials.

# SEE IT TOUCH IT

Experience the craftsmanship firsthand. Contact your H.C. Muddox consultant or distributor, or visit [hcmuddox.com](http://hcmuddox.com) to request samples and feel the quality for yourself.

Clay bricks are made from natural raw materials. When fired, brick colors can vary in color from batch to batch. We recommend selecting colors from actual product samples. Contact your H.C. Muddox brick consultant or distributor for color samples.
